

EXPERIENCE
THE FUTURE OF
FASTENERS NOW

SKY CLIMBER[®]
FASTENERS, LLC

with patent-pending designs for:

Barrel Nuts | Hybrid Locknuts

High Strength Locknuts

Isolator Mounts

Precision Torque Locknuts

Structural Honeycomb Floor Board
Installation Systems

**A Variety of New, Custom Fastening
Solutions and Systems**

With 19 patents filed in the last two years alone, Sky Climber Fasteners is pushing the boundaries of the fasteners industry. These products will improve installation times and increase safety factors on your aerospace, commercial and automotive projects.

We will change the way you use precision fasteners

install Precision Torque locknuts in
minutes, not hours

eliminate cotter pins, safety wire and drilled
bolts with LockOne Locknuts

save weight with the **world's strongest**
aluminum, alloy steel and Inconel 718 nuts

Our fastener designs are available in a wide variety of materials,
thread gauges, and finishes.

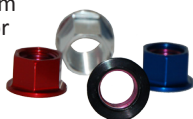

RHINO Hybrid Nuts and Locknuts

- Patent-pending one-piece assembly eliminates FOD
- Highest strength-to-weight-ratio nuts in the world, passing up to 50-cycle lock torque tests
- Chromate-free alternative to steel and titanium
- Consistent torque results—eliminates need for plastic inserts, oval-crimped nuts, adhesives

LockOne BULLET Locknuts

- Passes 30,000 cycle vibration testing per NAS3350, exceeds 180,000 cycles.
- Available in Carbon Steels, 4340, 300 Series S/S, A286 CRES, Inconel 718 and more.
- Installs easily with 12-point socket
- Vibration-resistant design eliminates need for cotter pin or lockwire assemblies, jam nuts and more

MANTIS Precision Torque Locknuts

- Precise mechanical locking with a cotter pin or safety wire at an exact lock torque
- Faster to install than any other precision torque locknut in the market.
- One-piece assembly eliminates FOD
- Compatible with gripwire locking or freerunning inserts

TITAN Barrel Nuts

- With our gripwire inserts, these barrel nuts provide exceptional strength and superior lock torque performance over the required 15 cycles and well beyond.
- Sizes 1/4" to 1.5" with some designs exceeding 260KSI
- Available in A286 CRES, AISI 4340, Inconel 718, and a variety of other materials.

and MORE. Ask about:

- Isolator Mounts
- Structural Floor Board Installation Systems
- Custom fastener solutions
